**TOM ROWE NAMED AS NEW PIMA CHAIRMAN  
Atlas Roofing Executive Brings More Than 25 Years of Experience  
in the Polyiso Industry**

Bethesda, MD — At the annual meeting of the Polyisocyanurate Insulation Manufacturers Association (PIMA), Tom Rowe, Vice President Sales and Marketing, Atlas Roofing Company, assumed the chairmanship of the organization. He replaces Alma Garnett, Vice President of Hunter Panels, who has served as PIMA chairman for the last 4 years.

“Tom brings a wealth of experience in the roofing industry, energy and commitment to the chairmanship,” said Jared Blum, PIMA President. “The association will continue to be a leader in the rigid foam board insulation industry and a force on energy efficiency and sustainability issues under his leadership.”

Tom started his career at Armstrong World Industries. He also worked for Celotex and Koppers prior to joining the Atlas Roofing Company in 1988. While at Atlas, Tom has been an Independent Sales Agent, Director of Sales and Vice President Sales and Marketing.

Atlas is a privately held division of Hood Companies with 18 Manufacturing Plants in United States, Canada and Mexico producing polyiso roof insulation and sidewall sheathing, EPS, asphalt based shingles, organic roll products and glass mat facers. Currently Atlas operates seven polyiso plants in the United States and Canada.

***About PIMA***

*For 20 years, the Polyisocyanurate Insulation Manufacturers Association (PIMA) has served as the unified voice of the rigid polyiso industry proactively advocating for safe, cost-effective, sustainable and energy efficient construction. PIMA’s members, who first came together in 1987, include a synergistic partnership of polyiso manufacturers and industry suppliers. Polyiso is one of the Nation’s most widely used and cost-effective insulation products available.*
